P.S. Adm. F. is
equally willing to
add a short page
before Wednesday Noon
or - to send copy for
about two pages = (6 cols -
on the 31st instant.

But he has no
copy of his present
ending to refer to.

R. Adm. Fitz Roy presents
his Comp.ts and would be
glad to have a proof
of his Notice of Shaw's
Work - in order that
he may suggest an
alteration in the last
few words. - If

if the Editor prefers having an addition to the present columns?

Otherwise - wdnt. I - would send "copy" for another Notice - of five or six columns (say two pages) of the Athenaeum - at the end of this week to be printed, and used, as early in January as may suit the Editor.

Or reply is expected by the bearer?

Dear Sir

I was pleased to find, yesterday, that your Printer had looked over the proof of my Weather Paper &

to be carefully that hardly
anything remained
to be omitted.

A few words only
were added - not
three lines.

Much interest seems
to be taken in the
subject - I hear
from Scotland - Ireland

is worth working
for - utility being
probable.
